Dear Petplan,  
I just wanted to let you know how pleased I am with my Petplan insurance.

In 2004, Milo our 5 year old Jack Russell developed a red, angry rash. We were referred to a skin specialist, who diagnosed Milo as having allergies to grass pollen, house mites and fleas. He was prescribed a combination of special tablets and steroids to control the allergy. Without the 'Covered for Life' policy from Petplan, we wouldn't have been able to afford to treat Milo's ongoing condition.

Thanks Petplan,  
Regards

Mr & Mrs Cole

To date Petplan  
has paid out over  
£4000 towards  
Milo's treatment
